

Sustainability?

Hjalti í Jákupsstovu

General agreement

- Fisheries kill fish – that is the main purpose
- But they should not kill too many
- A lot of theoretical framework
- Beverton & Holt, Ricker etc
- Management bodies NEAFC, NAFO Etc.
- Stock depletion Atlanto-scandian herring, Northern Cod

Buzz words

- MSY
- F_{01}
- Precautionary approach
- Reference points –
- Ecological approach to fisheries management
- Sustainability

How can we cooperate?

But we do cooperate

- ICES - Ecological research-Assessment
- FAO – Symposia on EAF
- NEAFC – Management in areas outside 200 nm
- NAFO – Management in areas outside 200 nm
- NASCO – Salmon fisheries
- Regional bodys – Cooperation in regional areas
- Nordic Council of Ministers

But we do cooperate

- Coastal state agreement on
 - Atlantoscandian herring
 - Mackerel
 - Blue whiting
- Buzz words
 - Catch control rule
 - Long term strategy on harvest strategies

But we need more cooperation

- Research into vulnerable areas
 - Coral reefs
 - Benthic habitats
- Research into large scale climatic effects on ecosystems
- Research into keeping and utilising all organisms killed
- Tracability

Economy and bioeconomy

- Energy
- Societal effects of the fisheries
- Sustainable food information
